➤ **Purpose/Requirement:** Provide maintenance, logistics, spare parts and operational support for nearly all the US Army's aviation simulators and aviation maintenance trainers as well as selected US Army Transportation School training systems. Notable devices and simulators which fall within this contract include the UH-60 and UH-1 Synthetic Flight Training System; the CH-47 flight simulator; the AH-64 Combat Mission Simulator; the AH-1 Flight and Weapons Simulator; numerous Army helicopter maintenance trainers such as the OH-58D Computer Fault Insertion Training System (CFITS) maintenance trainers; cockpit procedures trainers; crane and ship bridge simulators; and many others. Maintenance trainers are situated with the US Army Aviation Logistics School and with the Transportation School trainers and are located at Fort Eustis, Virginia. Procedural trainers and operational flight trainers (simulators) are located at the US Army Aviation Center, Fort Rucker, Alabama, to support flight school training. These trainers are also fielded at major Army installations throughout the world. There are 110 systems with over 1000 individual devices spread among 19 continental United States sites including Alaska and Hawaii.

➤ **Location:** Various locations worldwide.

➤ **Contract Award Date:** 24 Nov 98

➤ **Contract Type:** Firm-Fixed Price (FFP)

➤ **Contract Number:** N61339-99-C-0014
